

MASTER AND TRAY TRANSPORT BAGS

Minigrip's Master Transport Bags provide safe and secure transport of multiple samples. Their unique die-cut handle above the reclosable zipper provides quick and ease of movement and gusseted bottom allows for the bag to "stand" while loading and unloading samples.

Minigrip's Tray Transport Bags provide complete security for transportation of multiple samples in trays. These bags are ideal for storage and shipping.

Not only are Minigrip's Lab Guard® bags available in in our trademarked dispenser bags, but they are also available in heavy-duty, biodegradable dispenser cartons made from recycled material for easy storage and access.

Use for safe transport of chemotherapy drugs. These secondary storage containers are used by doctors, hospitals, and pharmacies to transport containers from the pharmacy to the patient and return of the empty containers to the pharmacy.
